Dear Mr. Marshall:

The Assistant Secretary, Land and Minerals Management, Department of the Interior, approved on November 3, 1994, the Crandall Canyon Mine mining plan modification for Federal lease UTU-68082. The mining plan modification approval authorized mining of about 13 million additional tons of Federal coal in 2980 acres of Federal lease UTU-68082.

Approval of this mining plan modification supplements the Crandall Canyon Mine mining plan for Federal lease UTU-68082 approved on May 16, 1994. Mining operations must be conducted in accordance with both the Utah State permit and the approved mining plan.

I have enclosed a copy of the mining plan approval document for the mining plan modification. Please read the terms and conditions of the mining plan approval document carefully. If you have any questions, please contact Richard Holbrook or me at (303) 672-5599.

Sincerely,

Ranvir Singh
